

So many horrors committed by the European Jews in Palestine.	
1. They injected Ethiopian Jewish women with sterilization but telling them they were receiving vaccination. They did not want any blacks living in Palestine and in one decade, they were able to reduce the birthrate among the Ethiopian Jewish community by 50%. These people have become Nazis.	
2. The European Jews never met any Yemeni Jews before 1948 and when they met them for the first time, they were surprised how dark-skinned the Yemeni Jews were and they decided that they had what they called "negro blood". They were trying to find a cure for sickle cell anemia which mostly effects African people and they began to do medical experimentation on the Yemeni children and sacrificing so many Yemeni children lives for their financial profit.	
3. When the Yemeni Jews first arrived in Palestine in 1948, they were told by the European Jews that it was government policy that they must hand over all their valuables for safekeeping. The Yemeni Jews believed them and they handed over all their valuables and they never saw the men or their valuables again.	
4. When the Yemeni Jews first arrived, their children were taken to what they called daycare centers and when some of the Yemeni parents returned to pick up their children, they were told that the baby had already died and already buried. Remember that the Yemeni Jews only spoke Arabic and the European Jews spoke Yiddish and they did not have a common language to communicate with. The babies did not die but they were sold for \$5,000 a child by one Ashkenazi to another Ashkenazi.	
5. So many Palestinian children and youngsters who were killed by the European soldiers had so many of their organs missing and the Jews were engaging in harvesting human organs from the Palestinians who died without permission from their families that they were removing their organs for profit.
